EBJ 2015 BUSINESS ACHIEVEMENT AWARDS

Environmental Business Journal presents its 18th annual EBJ Business Achievement Awards. Congratulations to the winners, thanks to all the companies that submitted nominations, and all are welcome to the official awards ceremony at Environmental Industry Summit XIV in San Diego on March 9-11, 2016, EBJ's annual three-day meeting.

Technology Merit

TECHNOLOGY MERIT: REMEDICATION

TerraTherm (Gardner, MA) for becoming the first thermal remediation company to gain certification of their soil heating system and heating components. Through **Intertek**, one of the world's largest testing, inspection and certification companies, TerraTherm's patented heater elements and heating system obtained the Electrical Testing Labs (ETL) Mark, a symbol that dates back to 1896 when Thomas Edison founded ETL to provide assurance to consumers through product performance and safety testing. Through attainment of the marks TerraTherm's In Situ Thermal Remediation (ISTR) system also demonstrated compliance with published safety standards (UL499 and UL1030), allowing more efficient and safe projects with expanded capability to streamline the per-

mitting process often required by the local inspectors and other stakeholders within the communities of TerraTherm's projects.
